Technical Drawings		p. 19

Collezione firmata da Storage Milano, Hexagonal si presenta allo stesso tempo semplice e ricercata, espressione di un progetto che sceglie di sottrarre piuttosto che aggiungere, lasciando parlare la materia. Ogni rubinetto nasce da una barra esagonale di ottone crudo scavata e tornita, quindi scaldata a cannello e curvata a mano. Da questo processo prendono forma le bocche dai particolari toni bruciati, segni autentici della lavorazione che rendono ogni pezzo unico. Hexagonal è una collezione no finish, senza PVD, cromature o colorazioni: l’ottone naturale rimane visibile nella sua purezza e si trasforma nel tempo, sviluppando una patina che muta con l’uso, l’acqua e l’aria. La geometria esagonale, netta e primaria, accompagna questa filosofia essenziale. Una collezione dal forte spirito artigianale ed ecologico: meno lavorazioni, meno consumo energetico e nessun trattamento superficiale. Il risultato è un oggetto naturalmente bello, totalmente riciclabile, capace di evolvere nel tempo, senza sofisticazioni.

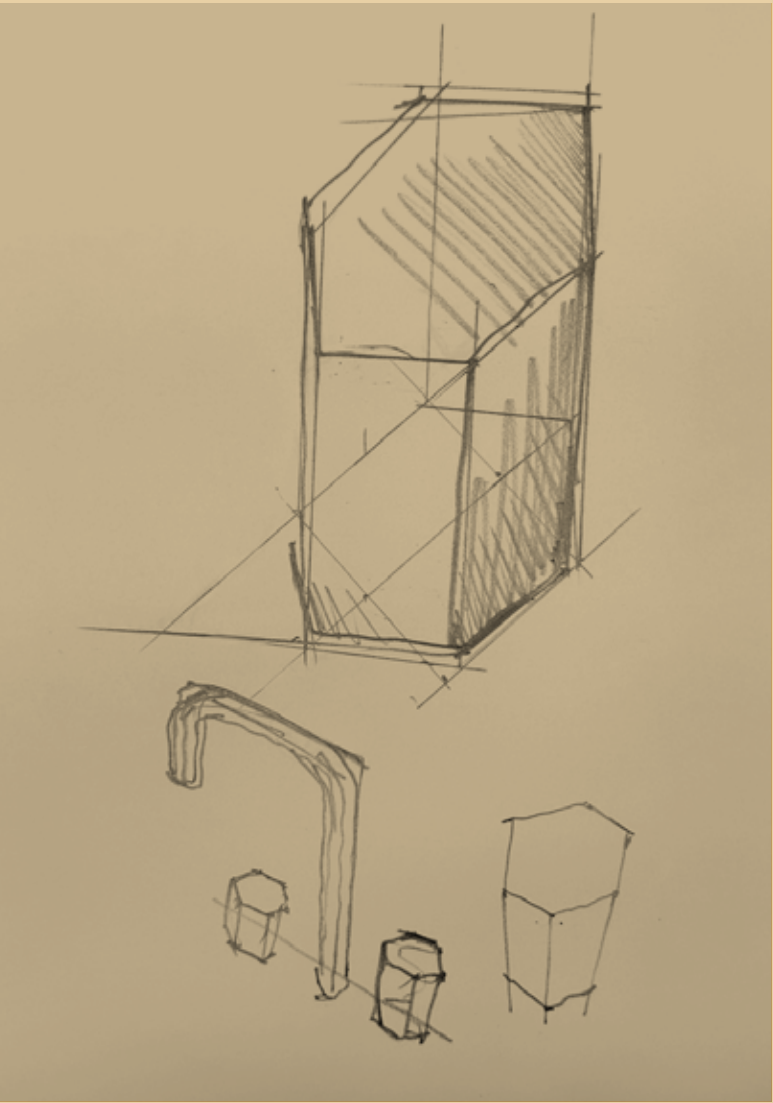

Designed by Storage Milano, Hexagonal is a collection that is at once simple and refined, the result of a design approach based on subtraction rather than addition, allowing the material itself to take center stage. Each tap is crafted from a solid hexagonal bar of raw brass, which is hollowed and turned, then heated with a torch and hand-bent. This process forms the spout and creates its distinctive burnt tones—authentic traces of the craftsmanship that make every piece unique. Hexagonal is a no-finish collection, without PVD coatings, chrome plating or colouring processes. The natural brass remains visible in its pure state and evolves over time, developing a patina that changes with use, water and air. The clean, essential hexagonal shape reinforces this philosophy of reduction. A collection with a strong artisanal and ecological spirit: fewer processes, lower energy consumption and no surface treatments. The result is an object that is effortlessly elegant, fully recyclable and able to evolve over time, without unnecessary embellishment.

“Abbiamo affrontato la sfida di disegnare un nuovo gruppo rubinetteria per Mamoli con totale dedizione ed un pizzico di ingenuità. Pur essendo un oggetto di uso comune e quotidiano poco sapevamo del processo produttivo e delle complesse implicazioni tecniche e dei vincoli che sono nascosti nell’oggetto stesso.”

“We approached the challenge of designing a new tap collection for Mamoli with total dedication and a touch of naivety. Although it is such a common everyday object, we initially knew very little about the production process and the complex technical implications and constraints hidden within it.”

A,B

A. cod. 45610000000057
 Miscelatore monocomando progressivo
 da lavabo / Single lever basin mixer with
 progressive cartridge

B. cod. 45660000000007
